REVIVAL ENDS SUNDAY NIGHT

Large Crowd Attends Services
At Baptist Church on
Closing Night

The Baptist revival, which has been in progress for two weeks came to a close Sunday night, with a large crowd in attendance and a splendid service. This was the fourth service of the day, all being well attended. Rev. O. J. Steger, the evangelist, started the day at a special men's service at the courthouse. More than 80 men attended this service heard a sensible discussion of the problems that face the men of this town and other towns. Much enthusiasm was shown at this meeting, and a large number of men signified their desire to revive the Men's Bible class. The first meeting will be held at the courthouse next Sunday morning. Members of all churches are asked to attend, for the class will not be denominational in any way.

The regular Sunday morning service was held at the church, and in the afternoon a special "family" service was held. A Bible was offered as a gift to the largest family present and seated together. The families of H. H. Taylor and Mrs. C. H. Back tied for honors, and each was given a Bible. Each had six children present.

The night service closed the revival. The minister, and his singers, Mr. and Mrs. David M. Hughes, have won a place in the hearts of the people of this community, regardless of church affiliations. The services have been well attended by members of all the churches, and the revival has undoubtedly been a blessing to the community. The workers were warm in their praise for the folks of this place and for the pastors of all churches here.

Rev. Steger and Mr. and Mrs. Hughes left Monday morning. They begin a revival in Indianapolis, Ind., this week.

WILL PUT ON SENIOR PLAY

"Polly With A Past" To Be Presented By High School
May 24th.

The seniors of Whitesburg High School will give a play, "Polly With A Past", on the night of May 24. It is being directed by Miss Grace Harris, who has given this city many splendid dramatic entertainments. "Polly With A Past" is a Booth Tarkington royalty play that had a year's run in New York City and was produced in London. It is a real treat, a big town play; and with the aid of the directing genius of Miss Harris, the seniors should be able to give Whitesburg play-lovers an evening of genuine enjoyment.

WHITESBURG TO PLAY ASHLESS

The Whitesburg Baseball team will play the fast Ashless team here Sunday afternoon, the game starting at 1 o'clock at the Whitesburg ball park. This will be the second game of the season for the home crew. They went to Hazard last Sunday and received a mauling, 9-3. That game was Whitesburg's until the sixth inning, 3-2, when one of our players got spiked and the opposing team slipped in six runs before our boys recovered their control. The game Sunday promises to be one of the fastest to be played on the home lot this season.

NOTICE TO OLD REGULAR BAPTISTS

By accident the names of the ministers to open the association of Old Regular Baptist faith and order at the next meeting with the Hurricane Gap Church, Gordon, Ky., were omitted by the secretary in preparing the minutes. This association begins on Friday before the first Saturday in September, 1928, and Eld. Will R. Boggs will preach the introductory sermon. G. C. Riddle was selected as alternate.

Mr. and Mrs. T. F. Brooks, Mrs. Crouch and Mrs. W. M. Norman of Sergeant and Millstone spent Sunday in our city.

Miss Vera Raleigh, of Eolia, former teacher in Whitesburg, spent the week end in the city as the guest of relatives.

Orville Hughes, who was principal of the Marlowe school last year, has returned to his home at Hinton, Ky. He and his assistant, Miss Oma Fields of this city, were very successful in their work at Marlowe, according to all reports.

Business Men's Club Will Entertain Seniors On Night
Of May 18

CIRCUIT COURT CONVENES MAY 14

The Circuit Court will convene Monday, May 14. Several important cases are to come up at this session. Judge Fields made a splendid start on his term in office at the last Circuit Court, and he should be even better prepared to dispatch his duties this time.

Farmers will be busy in their crops at this season, especially since spring has been so backward, but Circuit Court always brings a fair-sized crowd to town. It is always a pleasure to see the old-timers come back and say "howdy" again. Many of them do not get here often after each court.

FIRST 3rd OF 1928 FREE OF LYNCHING

An Associated Press story of May 3 states that the first four months of 1928 were free of lynchings in the United States. This is the first time in the history of the National Association for the Advancement of the Colored People when that long a time passed without mob violence somewhere in our nation.

Heretofore, from one to several lynchings have occurred each year within four months. James Weldon Johnson, secretary, said. In 1927 there were only 16 lynchings, as against 30 in 1926.

ARM BROKEN

ALL IS IN READINESS FOR COLLINS-HARVIE LOT SALE

The lot sale in the Collins-Harvie Addition to Whitesburg is to be held Saturday, May 12, beginning at 10 o'clock. Everything is in readiness for the event. Owners have been busy for several days plotting the ground and getting it marked off. Eric Rierson has been doing the survey work. Many of the lots are the best building sites to be had in or near Whitesburg. Any one planning to build, or wishing to invest money in property that will continue to increase in value, will find that these lots are worth considering.

One of the big events of the day Saturday will be the giving away of a new 5-passenger two-door Pontiac sedan. The Pontiac is rapidly becoming one of the city.

SENATE O K'S FLOOD BILL

Appropriation of More Than
\$400,000 For Road Building
Assured Passage

A telegram from Mrs. Katherine Langley, congresswoman for this district, states that the bill for appropriation of more than \$400,000 for the reconstruction of roads and bridges in this county was washed away during the flood last May, has passed the Senate and will come before the House of Representatives soon, where it is expected to carry without serious opposition.

The State of Kentucky has already passed a bill which provides for matching dollars with the Federal government in this flood relief, thus providing almost \$9,000,000 for roads in this county alone.

NEW ASSISTANT CIRCUIT CLERK

Miss Edna Fagate has been employed as assistant Circuit Clerk of this county, beginning her duties the first of May. She is from Jenkins and is well known in this city, having visited here often. She takes the place of F. F. Pendleton, who plans to take up different work soon.

ELECT TRUSTEES

At the election of trustees for the Whitesburg schools Saturday J. L. Lykins and Watson Mullins were elected to fill the vacancies made by the expiration of the terms of Leonard Lewis and Howard Logan. Mrs. James Combs was also on the ticket but failed to receive as many votes as either of the men. These men have the interest of the school at heart, and they can be depended upon to work for the advancement of the cause of education in this city.

Mrs. G. H. Fuller of Neen visited relatives in Whitesburg last week.

MOTHER'S DAY
There is no subject under the sun that we enjoy writing about as much as this one. Every year when we come to year's end we find that Mother's Day has been forgotten and our bit to the praise of woman in her most glorious career, might be born and grow to Motherhood. So much has been said about mothers and their children, that it has been forgotten that Mother's Day is merely another opportunity to show our love for the mother who has given us life and who has been the greatest blessing in our lives.

AMERICAN RAILROADS
The American railroads measure their income on basis of the revenue received for transporting one ton of freight one mile. It is an interesting fact that since 1921 the passenger rate has been reduced 6.2% and the freight rate 5.3%. This reduction in freight rates has meant a saving to the shippers of more than four billion dollars. In other words, if the shippers of freight over the United States railroads had been obliged to pay, during the years of 1922 to 1927 inclusive, the same rate for moving their traffic, measured by the revenue per ton mile, that was paid in 1921 under the order of Governmental authority, the aggregate cost, which would have of course been additional revenue for the railroads, would have exceeded four billion dollars. This reduction has been uninterrupted, each year showing a reduction in cooperation with the year before. Company's freight rates, as measured by the revenue per ton mile, have decreased about 15%—thus enabling the patrons of this road to save something over \$100,000,000. Doing a better job than ever before, and reducing its charges therefor—the steam railroads of the United States deserve your freight and passenger patronage.

whether she is here or in another world, by the flower—that we wear on this day. We are forgetful. We are careless and indifferent. We let the business and social affairs of each day crowd to the background that patient woman who stands always ready to comfort us when this world turns and administers a thrashing to her child. We let her heart go hungry for a word, a soft touch, a kiss that would cost us nothing and would bring great happiness to her. Mother's Day was instituted for the purpose of causing us to pause and consider these things. Mother's Day was founded by Inspiration.

Then let us wear a flower for mother next Sunday: red, if she is still with us in body; white, if she rests beneath the sod. And may those of us who are blessed with the privilege of wearing the red flower be allowed to continue to do so for many years to come.

RAIL HEADS DISAGREE
A meeting of the railroad heads of Northern and Southern roads in Cincinnati last week failed to bring about the compromises the northern roads wanted. They are fighting the decision of the southern roads to lower the freight rates on Lake Cargo coal to meet the 20-cent differential so much talked of recently. They wanted the southern roads to agree to a 10-cent differential, and thus stop what threatened to be a rate war between the northern and southern roads. The southern roads, among which was the I. & N., refused to concede this, and the meeting came to an end in deadlock. The southern roads are making a hard fight for the Lake business, which is the fight of the southern operator, and these roads are to be praised.

Supt. and Mrs. Boggs were called to the former's home at Eolia last week on account of illness in the family. They were away several days.

SKIMMINGS

Have you said anything nice about a neighbor today?

She said he was too nice to make interesting conversation.

Please explain this: After our credit is all gone, we can still borrow trouble.

Speaking of water power—what about the strength of woman's tears? They've moved millions of men.

Time does not change, but it changes us. Ten years ago this nation turned out to fight 'em, now it turns out to welcome 'em.

It is said that Hoover has 947,356 kinsmen in this country. Oh, boy, if he could only get them all to the polls on election day!

In Milwaukee they say a tiger sniffed at the door of a house. We've heard of men sniffing at the door of a "tiger"—when it was blind.

If you happen to have any children who don't remember the World War, just let them about the late Chicago primary election. They haven't missed anything.

The Whitesburg girl who said that not all flat tires were not on wheels, unless you count in the steering wheel, must have known what she was talking about.

Doctor Sloan says that the laziest man he knows anything about is that fellow who had the perfectly good tooth jerked so he could spit without working his jaws.

"Pittsburg man earns living trying knots, headline." That's nothing preachers merely pretend to tie knots that divorce courts shake loose, thus letting the preacher and the court get paid for something that was not.

Joe Richardson of the Glasgow Times thinks some of these hatless fellows had better watch out for the woodpeckers. No need for worry, Joe a woodpecker's bill can't penetrate solid ivory. Those are not mere blockheads.

A Detroit court stenographer was sent to jail because he would not work, and was given typewriter and dictaphone in his cell. But that did not work either. Which confirms the theory that you can lead a horse to water but you cannot make him drink.

"DE DUCKS" WILL GET YOU IF YOU DON'T LOOK OUT
A story is going around about an old southern negro who was asked by the proprietor of a store how he happened to need credit when he'd had such a good cotton crop.

"De ducks got 'bout all dat cotton, sah," was the mournful reply.

"What do you mean the ducks got it?"
"Well, you see," explained the old man, "I sent dat cotton up to town, an' dey deducks the storage charges, an' dey deducks the taxes. Yes, sah, de ducks got 'bout all dat cotton an' dat's 'dey I'm here."

LOST

Time from Work

Mr. Albert Gerdard, of Somerset, Ky., recently said:
"I used to work in the mines, but lost quite a bit of time on account of sick spells I had. I would get to having a bad taste in my mouth, and a very dull, dazed feeling and ache."

"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken."

"I never get without Black-Draught. I'll go on a visit. I take a package along in my suitcase. My health is better now than it has been in years."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Price 25c. Try it.

STUDEBAKER
The Great IndependentA New Record
for stock cars under \$1400

Better than
a mile a minute
for 5000 miles

The Dictator \$1195 to \$1395
P.O. FACTORY

BY traveling 5,000 miles in 4,751 consecutive minutes, the Studebaker Dictator has established a record unequalled by any stock car under \$1400—comparable to the existing world record of 5,000 miles in 4,559 minutes made by The Studebaker Commander last fall.

And not one, but two Dictator Roadsters, fully equipped, each traveled 5,000 miles in less than that number of minutes. The run was made at the Atlantic City Speedway, April 26-27, under the supervision of the Contest Board of the American Automobile Association. Before and after the run, the cars were checked by the Technical Committee and were pronounced strictly stock models.

CLAIMS vs. FACTS

Automobile advertising is full of extravagant claims of performance. But Studebaker offers you definite FACTS supported by the certificate of the highest motoring authority. Under A. A. A. supervision

The Commander has made a record never approached by any other car on earth (25,000 miles in less than 23,000 minutes). The Erakine and The Dictator have made records unequalled by any other stock cars at or near their prices.

The high quality of materials, the precision workmanship, the rigid inspections and the engineering genius in the Studebaker Dictator are proved not only by its ability to travel 5,000 miles in less than 4,800 consecutive minutes, but also by the fact that any Dictator can be driven 40 miles per hour as soon as it leaves the assembly line at the factory.

Backed by Studebaker's 75-year reputation for quality and value, The Dictator offers champion performance at a low One-Price price.
